

Corrigendum

Blakstad EW, Moltu SJ, Nakstad B, Veierød MB, Strømmen K, Julusson PB, et al. Enhanced nutrition improves growth and increases blood adiponectin concentrations in very low birth weight infants. *Food Nutr Res* 2016; 60: 33171. <https://doi.org/10.3402/fnr.v60.33171>

In the version of this article published online, the leptin levels in Tables 2 and 3 were reported in the wrong units as pg/mL (picogram/mL). The correct unit should be ng/mL (nanogram/mL). This has now been corrected and hereby updated as follows: ‘In Tables 2 and 3, the concentrations of leptin are reported as ng/mL (nanogram/mL).’

This correction does not alter the study’s findings of significance or overall interpretation of the study results. The authors regret for any inconvenience caused.
